1. Harnesses	7. Belay Device																
2. Helmets	8. Rescue kit in the area																
3. Covered footwear	9. Ladder																
4. Water	10. Long hair tied up, No jewelry																
5. First aid kit in the area	11. Clothing appropriate for the weather conditions																
6. Karabiners	12. Radio in the area																
Policies	Standard operating procedures, SMS, Calling a halt to an activity																
Weather Factors	Cease activity during thunder & lightning and wait for 30min. Cease activity in winds exceeding 30 knots / 60 km p/h.																

Site Specific Hazard	Severity	Potential	Management of Hazard	Result
Slippery ground	M	M	Ensure that there is sufficient bark for safety.	E
Children in close proximity to Climbing Wall and Abseiling	M	H	Ensure that every member in the group while activity is underway is clear that they are to stay away from the climbing wall, Pirates Walk and abseiling for the duration of the session.	M
Activity Specific Hazard	Severity	Potential	Management of Hazard	Result
Falling Crates	H		Demonstrate the procedure of connecting the crates to the white cord and disclose the possible consequence of falling crates. Also show how to attach to the dynamic rope and pull crate up to the climber.	M
Client being hit by a climber	M	M	Spotters must wear helmets and disclose the danger of a falling climber and rope stretch.	M
Climber climbing above pulley	H	M	Instructor to brief group that the climber must not be able to touch the cable.	M
Connector cord for the crates	H	M	Ensure the belay team is positioned to avoid the climber becoming twisted around the rope and make sure climber does not hold or climb around the cord.	M
Severity & Potential:	L = Low, M = Medium, H = High		Result:	I = Isolates Hazard, M = Minimizes Hazard, E = Eliminates Hazard

Incident Response Plan

Your safety: Do not put yourself at risk by helping others - you can't help if YOU get harmed

Group safety: Stop the group from being harmed: physically and emotionally. Gather them together and account for all staff and participants. Keep them informed. Use them to assist in dealing with the incident if appropriate.

Patient safety: Stop them from being harmed further.

Scene safety: For Medium Impact or higher keep the scene clear and undisturbed. Exceptions to this are:
when authorised by OSH inspector to relieve the suffering of any person to save life
to prevent further harm or damage to the property, people or the environment
